

Negotiating the complexities of environmental regulations can be challenging and time consuming. Whitestone relies upon demonstrated experience and knowledge of local conditions and regulations to deliver solutions that are timely, practical and cost-effective. Whitestone's environmental services include:

- **Due diligence investigations and property transfer related site evaluations** (phase I ESAs, transaction screen process assessments, phase II site investigations/remedial investigations, remedial action feasibility analyses and budgetary cost estimates)
- **Remedial design/remediation management** (corrective action programs for addressing soil and groundwater contamination)
- **Underground storage tank** system evaluation and closure
- **Brownfields redevelopment** (fixed-fee remediation and environmental liability protection/insurance procurement assistance)
- **Hazardous building material services** (asbestos, lead-based paint, indoor air quality, mold, PCB and mercury evaluation, abatement and/or management programs)
- **Permit coordination & compliance**
- **Waste management services** (TSDF/transporter audits; waste management, minimization, and pollution prevention programs)
- **Litigation support/expert witness services**
- **Compliance training** (OSHA Health and Safety and environmental management)
- **Wetlands evaluation and permitting**
