

**WHITESTONE
ASSOCIATES, INC.**

Environmental & Geotechnical Engineers & Consultants

Complete. Integrated. Service.

Whitestone Associates, Inc. provides **complete, integrated** environmental and geotechnical engineering and consulting **services** to its client base of international and national corporations, law firms, engineering companies, real estate developers and property managers, financial institutions, insurance underwriters, government agencies, and municipalities.

Whitestone was founded in 1994 to provide specialized environmental compliance and consulting services. Geotechnical engineering capabilities were added in 1995. Today, Whitestone provides a full-range of integrated environmental and geotechnical engineering and consulting services.

Our multi-disciplined staff includes Professional Engineers licensed in 12 states and the District of Columbia, Licensed Site Remediation Professionals, Certified Professional Geologists, environmental auditors, licensed asbestos and lead inspectors, certified hazardous waste supervisors, and certified and licensed construction inspectors.

Headquartered in New Jersey, Whitestone has a branch office in Pennsylvania, and maintains satellite operations in Virginia and Colorado. Whitestone services clients from New England through the Mid-Atlantic states.

Geotechnical Services:

- Geotechnical investigations
- Alternative foundation design
- Stormwater management evaluations
- Wastewater treatment system design and permitting
- Soil classification testing and laboratory analyses
- Pavement assessment and failure evaluation
- Retaining structure design
- Construction phase testing and inspection services
- Forensic engineering
- Litigation support/expert witness

Environmental Services:

- Due diligence investigations and property transfer related evaluations
- Remedial design/remediation management
- Underground storage tank evaluation and closure
- Brownfields remediation and redevelopment
- Hazardous building materials evaluations
- Permit coordination and compliance
- Waste management and TSDf auditing
- Litigation support/expert witness
- Compliance training
- Wetlands evaluation and permitting

Whitestone specializes in commercial and retail site development and redevelopment efforts.

From initial due diligence through construction/remediation, Whitestone provides an array of professional services.

Brownfields redevelopment efforts can incorporate sustainable technologies and fixed-fee remediation programs.

Wastewater treatment system designs utilize state-of-the-art capabilities to ensure compliant operation.

WHITESTONE ASSOCIATES, INC.

Our staff and managers specialize in delivering comprehensive and innovative solutions to your environmental and geotechnical concerns. We are your environmental and geotechnical evaluation, remediation, and development partner from initial due diligence through construction and remediation.

Quality, customer service, and integrity define our professionals, exemplify our work product, and ensure the success of your project.
